the astronomer. Astronomy's major goal is an understanding of the nature of stars; the large collection of
stars called galaxies; and ultimately, the universe itself. For example, in the 20 th century, it has become
apparent that stars change or evolve over time, and it is appropriate to talk in terms of stellar birth, life, and
death.

With that motivation we created Astronomy Through Practical Investigations (ATPI). We tried to get publishers to produce the materials BUT none were interested in producing them in the modular format that we felt was so important. We introduced the approach of separate modules so that we could tailor our courses to our individual interests, and ...
