Since writing the original blog spot on full bleed printing, I can't go more than a day without being asked about printing bleeds.. A full-bleed print has print (whether ink or toner) to at least one edge of the paper without a border. Most, if not all printers and copiers have a built-in border which gets in the way of automatically printing a document edge to edge.

Taking Print to the Edge: How to Do Full-Bleed Printing

There can be many reasons why you will need to bleed the air out of the lines from the oil tank to the oil burner. The most common reason why you will have to bleed an oil burner is because you either ran to low on oil, clogged the lines, or you ran completely out of oil and the burner pump has now sucked air causing the burner to not ignite because the air to fuel mixture is just all wrong.

Just finished the book a couple of days ago. Damn good. Reason it took so long is I realized I was doing the same thing I did with the last Dresden book: didn't want to finish it too soon, so kept only reading 20-30 pages.. If I may say, struck me as being something like the first Dresden book: obviously a first book, not just in the "more stories to come" sense, but something about the ...
