valuation, while the final section of the course applies the skills in several different contexts, such as credit analysis, security analysis, mergers and acquisitions and financial policy decisions. 2.4 Course Aims and Relationship to Other Courses Business Analysis and Valuation is a capstone course that brings together areas of financial

ACCT5910 Business Analysis and Valuation S12015

A business valuation is a business process used to determine the total worth of a particular business or company. Since a business owner doesnâ€™t exactly know the amount of his business, a business valuation report is issued to deliberate and analyze the businessâ€™ components in order to arrive at a specific cost of the business.

5+ Sample Business Valuation Report - Examples in Word, PDF

These steps are applied to a variety of business contexts, including securities analysis, credit analysis, merger & acquisition decisions, and governance. The book includes a broad range of classic and new HBS cases to illustrate the concepts and applications.
