Syllabus MBA (Marketing) Two Years Full Time Programme

Applied economics is the application of economic theory and econometrics in specific settings. As one of the two sets of fields of economics (the other set being the core), it is typically characterized by the application of the core, i.e. economic theory and econometrics, to address practical issues in a range of fields including demographic economics, labour economics, business economics ...

Applied economics - Wikipedia

In economics a monopoly is a firm that lacks any viable competition, and is the sole producer of the industry's product. In a normal competitive situation, no firm can charge a price that is significantly higher than the Marginal cost of producing (the last unit of) the product. If any firm doing business within a competitive situation tries to raise prices significantly higher than the ...
