The wave equation is an important second-order linear partial differential equation for the description of waves—as they occur in classical physics—such as mechanical waves (e.g. water waves, sound waves and seismic waves) or light waves. It arises in fields like acoustics, electromagnetics, and fluid dynamics.. Historically, the problem of a vibrating string such as that of a musical ...

Classical liberalism is a political ideology and a branch of liberalism which advocates civil liberties under the rule of law with an emphasis on economic freedom. Closely related to economic liberalism, it developed in the early 19th century, building on ideas from the previous century as a response to urbanization and to the Industrial Revolution in Europe and the United States.

Make it a double: A method for the selective α -dehydrogenation of amides in the presence of other carbonyl moieties under mild conditions has been developed. This strategy relies on electrophilic activation coupled to in situ selective selenium-mediated dehydrogenation. Mechanistic experiments suggest formation of an electrophilic Se IV species.

If you are coming from C background than there is pleasant surprise for you, Java programming language provides implicit bound checks on Array, which means an invalid array index access is not allowed in Java and it will result in java.lang.ArrayIndexOutOfBoundsException. Array is one of the most used data structure across all programming language and it's no different in Java.
